AK/AS/SC/CSE 3311.03
Fundamentals of Data Structures

Instructions for class tests and, except for length of the examination, instructions for the final examination. It is suggested you familiarize yourself with the instructions.

Instructions

Ques	Max	Mark
1	9	_____
2	9	_____
3	9	_____
4	9	_____
5	9	_____
Total		_____
Letter grade		_____

1. This is a closed book examination. No examination aids are permitted – no calculators, telephones, etc

2. All questions are to be attempted.

3. Answer each question in the space provided.

4. Each question is evaluated on the York University letter grade scale A+, A, ..., D, E, F.

5. Where descriptive answers are requested, use complete sentences and paragraphs

6. All programming and mathematical work is to include comments explaining what you are doing.

7. Wherever appropriate, use diagrams to enhance your answers.

8. If a question is ambiguous or unclear then please write your assumptions and proceed to answer the question.

9. You may write in pencil but class tests written in pencil are not re-evaluated.

10. The test time is approximately 75 minutes (class test), 3 hours (final examination).

Number of questions can vary
