

EECS 1022 P Jan 6 Lecture
Yves Lesperance

Do This Week

- Familiarize yourself with the course website
- Go to your lab session: VBox & ePortfolio
- Read Ch 1 and 2 of textbook
- Do Hello World project in Ch 1 of textbook
- The Sandbox project (see announcement on Moodle)
- Read and digest lecture notes
- Do assignment (see announcement)

Java

- Industrial strength, modern
- Adopts C syntax (like JavaScript)
- OOP: Programmimg by Delegation
- Strongly-Typed: Allows static checking for potential syntax and logic errors
- Platform-Independent: Write once, run anywhere
